

I-Warehouse

UNPRECEDENTED ACCESS TO ALL TRIAL DATA

I-Warehouse provides Sponsors with immediate and ubiquitous access to all data that has been generated throughout the clinical development program. Data from trials run with InSpire EDC are exported based upon the sponsors schedule. The user-friendly system provides access to this data to create single study or cross-study reports, giving Sponsors more control and flexibility of their data, not just for trials, but programs.

STREAMLINE REPORTING WITH UNPARALLELED FEATURES

- ✓ Export full data sets in SAS or a custom format *On Demand* at the push of a button
- ✓ Have access to unlimited reporting: available 24/7 with no additional export costs
- ✓ Download reports into Excel or PDF format for further data analysis
- ✓ Create and regenerate ad hoc reports at no cost and receive immediate results
- ✓ Develop custom reports that enable rapid assessments for interim analyses & DSMB reviews
- ✓ Streamline the organization of search criteria with drag and drop features
- ✓ Render graphical summaries of study data results and report comparisons

MEET REGULATORY AND SAFETY CHALLENGES

I-Warehouse is a powerful tool to support Clinical, Regulatory, and Product Development questions, and requires no Regulatory, Safety or Clinical programming experience. I-Warehouse is 21 CFR Part 11 compliant.
